

Leading the way in Trade Finance

Indonesia's Market leader and Best service in Euromoney's 2021 Trade Finance Survey

Jakarta, 25 March 2021 - Our investments in new skills, digital solutions and innovative products are driving the transformation of trade — and our clients have recognised us as being the best. In a Euromoney survey of more than 11,000 businesses, we were voted as **Market Leader for Trade Finance** and **Best Service for Trade Finance** in Indonesia. HSBC is also Market Leader for Trade Finance in Asia Pacific for the second year in a row Best Service for Trade Finance in Asia Pacific, while in the world, we are the top trade financing bank — for the fourth year in a row. HSBC took first place in 23 individual markets, and we were voted best overall service provider in 17 markets, including the UK and other major markets.

“To win this award for a record fourth consecutive year is testament to our teams’ unwavering focus on customers and to getting things done – even in the midst of a global pandemic,” said François de Maricourt, President Director PT Bank HSBC Indonesia.

This demonstrates how we’re delivering simpler, safer and faster trade transactions right across the globe. The win reflects the huge dedication the team has shown to our customers and to getting things done during very challenging circumstances.
